

JOSHUA BALA NOMA

Full-Stack Developer

Nigeria | Available for remote work globally | +234-813-359-2444
ballyzap@gmail.com | github.com/ballyzap | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 2+ years of experience building responsive, high-performance web applications. Specialized in modern JavaScript frameworks (React, Next.js) and backend technologies (Node.js, PostgreSQL). Proven track record of delivering scalable solutions for diverse clients including non-profits, e-commerce platforms, and business websites. Strong expertise in remote collaboration and translating client requirements into elegant technical solutions. Committed to writing clean, maintainable code and staying current with emerging technologies and industry best practices.

TECHNICAL SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Backend & Database: Node.js, PostgreSQL, RESTful API Design, WordPress (Headless CMS)

Development Tools: Git, GitHub, VS Code, Webpack, Chrome DevTools

Additional Languages: Java, Python (Basic)

Collaboration Tools: Zoom, Google Meet

Core Competencies: Responsive Web Design, Cross-browser Compatibility, Performance Optimization

PROFESSIONAL EXPERIENCE & PROJECTS

Web Developer | Hanaja Consulting Limited

Remote | 2025 - Present

- Developed corporate website using Next.js and modern web technologies, showcasing training & research consulting, renewable energy, and engineering services for a leading professional development firm
- Implemented responsive design with modern UI/UX patterns, ensuring seamless user experience across all devices and browsers
- Built dynamic content sections for service offerings, team profiles, and company information with clean, maintainable code
- Optimized site performance for fast load times and excellent SEO metrics to enhance online visibility
- Website: hanajaconsulting.com

Full-Stack Developer | GIGREE (Global Initiative for Girls Rights Education)

Remote | 2025

- Developed a comprehensive responsive website using Next.js and Tailwind CSS for a non-profit organization dedicated to girls' rights and education, implementing dynamic components that enhanced user engagement

- Built and integrated an admin dashboard for content management, enabling organization staff to manage projects, blog posts, team profiles, and donor information efficiently
- Engineered server-side rendering and static site generation with Next.js to ensure optimal performance, SEO, and accessibility across all devices
- Implemented modern UI/UX design patterns following WCAG accessibility standards to ensure inclusive user experience for stakeholders worldwide
- Optimized application performance through Next.js code splitting and lazy loading, reducing initial load time by 40%
- Website: gigreenig.org

Web Developer | Ibdelight.com

Remote | 2024

- Designed and developed a product showcase e-commerce platform using WordPress with custom theme development, prioritizing intuitive UI/UX design to maximize conversion rates
- Implemented responsive design principles ensuring seamless compatibility across desktop, tablet, and mobile devices with extensive cross-browser testing
- Optimized site performance achieving 90+ PageSpeed Insights score through image optimization, caching strategies, and minification
